

Data Centre Logistics Manager

THE ORGANISATION

Our client is a leading global logistics and transportation company with operations in over 30 countries. The organisation's success is based on its strong commitment to exceptional customer-service levels and innovation delivered through a highly integrated network of people, technology and infrastructure. In Ireland, the company's activities focus on supporting a leading provider of Internet and Cloud Computing Services, located in the greater Dublin region..

THE ROLE

To support its continued success the company is seeking to appoint a Data Centre Logistics Manager. The Data Centre Logistics Manager will own and manage the relationship with the client, focusing on the delivery of value-added support services and logistics.

THE PERSON

This position requires an experienced relationship manager with strong leadership, planning and communication abilities. The Data Centre Logistics Manager will lead the local team and will ensure that a highly motivated, customer-centric culture prevails.

The appointed candidate will possess a minimum of 5 years' leadership experience, working in a client facing role with a significant operational focus and a strong emphasis on customer experience.

The remuneration package offered will be commensurate with the seniority of this role.

MAIN RESPONSIBILITIES INCLUDE:

- Own and Manage the client relationship
- Organise all resources to optimise client service
- Provide effective team leadership
- Utilise LEAN philosophy and techniques, quality management processes and cost control methodologies within the operation
- Financial reporting, forecasting and budget planning

QUALIFICATIONS SKILLS & EXPERIENCE:

- More than 5 Years of relevant leadership experience in a comparable role
- Third-level qualification in a relevant discipline is desirable
- Exemplary communications and team leadership abilities
- Ability to critically evaluate, prioritise, plan and implement
- Strong Project Management skills
- Experienced in Shipping and Logistics
- Excellent IT skills
